PROFILE

I am a passionate and detail-oriented Front-End Developer with a strong foundation in web technologies, including **HTML, CSS, JavaScript, and React.js**. I have hands-on experience building responsive and user-friendly web applications, ensuring seamless user experiences. My expertise includes working with modern front-end frameworks, debugging, and optimizing performance. A continuous learner, I stay updated with the latest industry trends and best practices.

WORK EXPERIENCE

01/2025 - PRESENT

Hermon Solutions | Perungalathur, chennai

Frond-End Developer

- Designed and developed the **Skanda Fincorp** website from scratch, successfully completing the project and launching the website.
- Built the **Araciyal** website from the ground up, ensuring a fully functional and responsive design, and successfully launching it.
- Developed the **e-commerce user page** for the company's own product website, focusing on a seamless and user-friendly interface.

07/2024 - 12/2024

Hermon Solutions | Perungalathur, chennai

Internship For Frond-End Developer

- Completed two months of intensive training in front-end development.
- Worked on UI design and integration for the company's **e-commerce admin panel**.
- Contributed to the **Moving Walls** client project, focusing on UI design improvements.
- Led the development of the **Kavalkaran** project from scratch, successfully completing the full implementation.
- Performed alignment corrections for the **PSK Foods &Products** website, enhancing its visual consistency.
